

**QUOTATION Ref – 0302-001-Rev-01****VAYON SYSTEMS**

Excellence in Machine Safety & Engineering Solutions

**Client Details :**

**Kind attention :** – Mr. Purushothaman

Accurate machines & Accessories P.Ltd

397, SIDCO industrial estate, Ambattur, Chennai, Tamil Nadu 600 098

Dated: 11/03/2026

**Scope of Work**

1. Site review of the machine to understand its configuration, operation, and safety features.
2. Collection and documentation of machine identification details, technical specifications, and system components (electrical, pneumatic, hydraulic, and mechanical).
3. Documentation of safety features including guards, safety interlocks, emergency stops, safety sensors, and energy isolation / Lockout-Tagout (LOTO) points.
4. Preparation of operating procedures including pre-start checks, startup, normal operation, and shutdown instructions.
5. Documentation of control systems including control panels, PLC/HMI interface, alarms, and basic troubleshooting guidance.
6. Development of preventive maintenance guidelines and recommended spare parts information where available.
7. Capture and inclusion of photographs of key machine components, control panels, safety devices, identification plates, and safety signage.
8. Compilation of the above information into a structured **Machine Operation & Safety Manual** following internationally recognized practices for machinery instruction manuals.

## **Terms & Conditions**

1. **Payment Terms:** 100% advance payment against Purchase Order (PO) prior to commencement of work.
2. **Scope Basis:** The manual will be prepared based on information, drawings, and inputs provided by the customer / machine supplier along with observations during the site review.
3. **Deliverable:** The final Machine Operation & Safety Manual will be provided in digital format (PDF/Word).
4. **Revision:** One round of minor revisions based on customer feedback is included within the quoted price. Additional revisions or scope changes may be charged separately.
5. **Customer Support:** The customer shall provide necessary access to the machine, technical documents, and relevant personnel required for information collection.
6. **Taxes:** GST will be charged extra as applicable.
7. **Validity:** This quotation is valid for 15 days from the date of issue.
8. **Liability:** The manual is prepared for operational guidance based on available information and does not replace OEM documentation, statutory compliance requirements, or formal machine risk assessment.

Regards,
